

2019 Jay County Robotics Sponsor Drive

Purpose: The purpose of the 2019 Jay County Robotics Sponsor Drive is to help fund the Jay County Robotics (JCR) competitive program throughout the 2019-2020 season. This year, the students are taking on more responsibility and involvement in the sponsorship and fundraising efforts. These funds go to directly impact and help these students build and compete with their world class robots.

Any donation that is made will reflect in the student's participation fees and help this student participate. During the season, JCR will have anywhere between 7-14 competing robots any given weekend; each of these robots range in cost from \$2,000-\$2,500. On top of that there are registration fees, travel costs and the cost of purchasing game elements and fields. Any donations made can be tax deductible (based on tax laws) and a W-9 can be obtained by contacting Mr. Love.

Thank you for any considerations. Checks need to be made out to Jay County Robotics. If you have any questions, please contact Kyle Love (klove@jayschools.k12.in.us).
